Priestman Neilson & Associates (PNA) Elevator and Escalator Consultants

About us

Priestman Neilson & Associates Ltd. (PNA) is a consulting firm specializing in vertical and horizontal transportation systems. Our areas of expertise include passenger and freight elevators, escalators, moving walks, material lifts, dumbwaiters, Lifts for persons with physical disabilities, funiculars and mine elevators. We are a 100% privately owned company with no affiliations to industry contractors or manufacturers. This allows us to offer our clients completely independent consulting services.

PNA Consultants has a staff of professionals with over 110 years of cumulative experience in the elevator industry. We offer expert advice to all your elevator related needs. Our goal is to demystify the elevator industry and to give back the control and knowledge to owners and managers.

Equipment upgrades, maintenance programs, modernization projects and new equipment installations require a rigorous approach and excellent project management in order to meet customer's needs and budgets. Our systematic approach and proven project management skills have allowed us to manage even the most challenging jobs and bring them to successful completion. We have earned an excellent reputation in the industry with both building managers as well as contractors.

PNA Consultants has successfully managed hundreds of projects throughout the province of Ontario since our inception in 1990. Our firm's growing reputation is due to our clients satisfaction.
